

SANDEEP KUMAR

Software Engineer | Python Backend & AI-Integrated Full-Stack Development

6207759528 | sandeepkumarultra615615@gmail.com | <https://www.linkedin.com/in/sandeep-qisanxi>

SUMMARY

Self-driven Developer with strong foundation in data structures, algorithms, and Backend Development. Overcame self-directed learning hurdles by shifting focus to high-impact tech hackathons, open-source GitHub contributions, and end-to-end project development. Seeking an entry-level role where I can build scalable web applications .

TECHNICAL SKILLS

Languages and Frameworks: Python, FastAPI , Django , react.js . SQL , Postgres . MongoDB , Java , RESTAPI

Tools & Infrastructure: Git, GitHub, VS Code, Docker, Linux, AWS, Firebase , Google Cloud , Claude Code , Codex

PROJECTS & HACKATHON EXPERIENCE

DueAlert :

<https://github.com/Qisanxi/DueAlert>

Tech Stack: Python || FastAPI || Pydantic|| React.js||Tailwind CSS||Google GenAI SDK||Firebase.

- DueAlert is an AI-powered fee collection and student payment tracking platform designed for coaching centers and educational institutions.helps institutions organize student fee data, identify payment-risk patterns

AutoPost :

<https://github.com/Qisanxi/AutoPost>

Tech Stack: Python|| FastAPI || Google Gemini 3.5 Flash || Google ADK 2.8 ||React || Vite || React Router 7 ||

- AutoPost is a fully autonomous content agent. You point it at GitHub, it finds what is worth talking about, writes the post, and ships it — on LinkedIn and Dev.to — without you touching a keyboard after setup.

AMD AI DEVMASTER HACKATHON :

https://github.com/Qisanxi/Whatsapp_priority_...

- Project: WhatsApp Priority Agent (Agentic AI Track) Architected AI-driven automation technique.
- Recognized by AMD Developer Program for outstanding participation and project completion.

EXPERIENCE & PROFESSIONAL DEVELOPMENT

Prompt Engineering Research & Integration — Remote Internship

Remote | June 2026 – July 2026

Excelerate

- Integrated AI prompts into backend workflows to improve system reliability and contextual accuracy.
- Strengthened understanding of backend-AI integration and scalable API design.

Mobile App Development — Remote Internship

Remote | July 2026 – August 2026

Excelerate

- Architected and deployed a comprehensive state management system
- Gained exposure to full-stack development, reinforcing backend concepts in a mobile context.

McKinsey Forward Program

Remote | May 2026– July 2026

McKinsey.org

- Graduated from a 10-week global learning program in communication and leadership

EDUCATION & CERTIFICATIONS

Bachelor of Computer Application

2024 – 2027

Patliputra University, Patna, India

Coursework: Data Structures & Algorithms, Database Management Systems, Operating Systems,Web Development,

Certifications

- **OpenAPI Fundamentals** — Linux Foundation, 2026
- **Docker Essentials: A Developer Introduction** — IBM, 2026
- **Oracle Certified Foundations Associate — Agentic AI** — Oracle, 2026
- **Authentication & Authorization for Web/API** — Linux Foundation, 2026

ADDITIONAL INFORMATION

- Campus Leadership: Served as Internshala Student Partner, promoting career opportunities and engaging peers through workshops and outreach initiatives..
- Interests: competitive programming, machine learning, cloud computing
